As Summer begins to wind down, it is time to start thinking about your boat storage needs before the cold weather hits us. At Blue Lagoon, we are able to accommodate your heated indoor and outdoor winter storage needs at our marina or our clean and secure 20,000 square foot building. Our indoor storage customers will be provided an entry and alarm code that will allow 24/7 access to your boat. Outdoor storage customers have the option to winterize and shrink wrap on-site. We can accommodate most boats up to 15 foot wide and as an added convenience and for a nominal fee, our licensed captain will pick up and deliver your boat from your well to our facilities. Please feel free to compare us with the competition.

Contact us today to schedule your haul out at (586) 463-1020
